CERTIFIED ISO 9001:2015 COMPANY

MASTER®

Leadership Through Quality

Jain Transmission (India) Private Limited.
Was established in 1991. We are ISO 9001:2015 certified company.
We are manufacturer and exporter of high quality V-Belts, for Industrial and agriculture segments.

Established in 1991 "Jain Transmission (India) Private Limited " with clear and straight aspirations of manufacturing, commenced production of rubber based items like "V-Belts, wedge belts, harvester combine belts, variable speed belts, conical belts, rubber sheets, and conveyor belts, " Jain Transmission (India) Private Limited "installed the state of art machinery and acquired latest technology. The process of modernization of machinery and technology continues unabated to produce the quality products to meet and match the national and international standards. The main thrust is to keep up our commitment of consistency in quality, batch by batch and to ensure versatile service to our valued clients. " Jain Transmission (India) Private Limited" is a Company that brings care into business, care for the industry, and care for the customers and that is where we excel, regionally, nationally and internationally.

JTIL Product is being continuous supplied to OEMs and private limited Institutions .Throughout India, We have well established Distributor network for our products for replacement market and have stock branch offices at Delhi & Mumbai.

The Company maintains a separate R & D section consisting of a well equipped testing laboratory. The production and R & D activities are manned & looked after by qualified and experienced professionals and other skilled workers, highly capable to produce quality products under the Dynamic and expert guidance of M.D.

Jain Transmission (India) Private Limited "guarantees quality, competitive prices, attractive business terms and adherence to the committed delivery schedule. Our Growth-Rate in every aspect of the economy like Production, Sales is under multiplicity of varying 35% (t) in compounding value. To bridge between manufacturing and economy of the product, an expansion- project is undertaken to accelerate productivity under proper instrumentation; so as to produce the belts with geometrically accurate in every respect. Higher productivity of the machines shall reflect upon the economy of the manufacturing.

"Jain Transmission (India) Private Limited " is determined in its honest commitment to unequalled quality and service to their impressive customers and to the would-be customer's world-over with a tendency of basking in glory of past achievements. Our increasing productivity, product testing facilities have achieved license for marking ISI as per BIS 2494 (part-I) 1994 and the ISO 9001-2015 to improve our best quality management system standard.

We stand committed to manufacture & supply product of consistent quality and timely delivery as per customer's requirements to their entire satisfaction.

We aim for continual improvement through conformance of product to required parameters and effective implementation of Quality Management System in line with ISO 9001:2015, ISI as per BIS 2494 (part-1) and optimum use of resources

JTIL Provide comprehensive technical support to our valued customer. Our application engineers offer assistance into operational problems and suggest solution .prompt satisfactory service after sales is assured.

JTIL V-Belts are match free belts subject to precise length control, do not require matching & any number of belts of the same size can be used to make a set.

Leadership Through Quality

Instruction for installation and storage of MASTER V-Belt

- lCheck the sheave or sprocket alignment. Grooves must be free from dust, rust, burrs in order to achieve optimum belt life.
- Check that the drive must be equipped with belts of the correct section and size. Belts cross-section and sheave grooves must match.
- Install the new belts or set of belts. Always use belts from the same manufacturer on a multiple belt drive.
- Always install the v-belts without force. Installation using screwdriver, pry bar etc cause external and internal damage to the belt.
- Adjust the motor base adjustment screws to take up the center distance on the belt drive until the belts are tight.
- Check belt tension using a tension gauge or sonic tension meter. Adjust the belt drive's center distance until the correct tension is measured.
- Rotate the belt drive by hand for a few revolutions. Re-check the belt tension & adjust as necessary.
- On multiple belt drives, follow the recommendation run-in and re-tensioning procedure to minimize the visible difference in belt sag.
- Check the drive guard fitted properly in order to avoid ingress of foreign material in the drive.
- Storage: Belts should be stored in a cool & dry environment with no direct sunlight Ideally, less than 30°c and 70% relative humidity. The common method of storing the v-belts is to hang them in crescent shaped pegs or pin racks. Improper storage will damage the tensile cord & the belt will fail prematurely.

Leadership Through Quality

Recommended Minimum Pulley Pitch Diameters (mm)

A	B	C	D	E	SPZ/3V	SPA	SPB	SPC	8V
80	125	200	315	500	56	90	160	224	335

Recommendation for Drive Design

Design Formula

(1) Speed Ratio R = $\frac{\text{rev/min of the Faster Shaft}}{\text{rev/min of the Slower Shaft}} = \frac{\text{Pitch Dia of large pulley}}{\text{Pitch Dia of smaller pulley}} = \frac{D}{d}$

(2) Pitch length of belt, $L = 2C + \frac{(D-d)^2}{4C} + 1.57\,(D + d)$

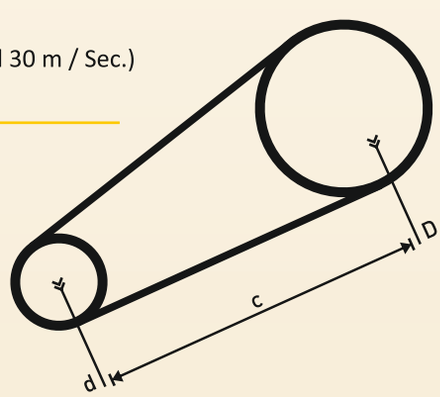

(C = Center Distance)

(3) Center Distance, $C = A + A^2 - B$ (in case center distance is not specified choose C = 2 X (D+d) d

Where $A = \frac{L}{4}\ 0.3925\,(D + d)$

$B = \frac{(D - d)^2}{8}$

(3) Belt Velocity / Peripheral Speed (V) = $\frac{DN}{19100}$ m/Sec. (Should not normally exceed 30 m / Sec.)

Terms :

1. Exclusive of all taxes.
2. Prices & terms are subject to change without prior notice.
3. Prices are F.O.R. ex-works/Branch.
4. All disputes are subject to Indore jurisdiction.
5. Distributors / Whole sellers / Dealers are free to sell at lower price.
6. This price list cancels all earlier price lists.
7. Prices prevailing at the time of dispatch will apply.
